25 NOV 1985

MEMORANDUM FOR: The Honorable Dr. George A. Keyworth, II
Science Advisor to the President

SUBJECT: CIA Nominee for OSTP Assignment

REFERENCE: Letter from Jerry Jennings, Executive Director/OSTP,
dated 2 August 1985

STAT

1. As you are aware, an extensive search by your staff and [redacted] [redacted] OSWR over the last few weeks has identified [redacted] a worthy candidate to serve as the CIA representative to OSTP. I am pleased that your personal interviews found him to be acceptable. [redacted] will begin his nominal one year rotational assignment with you beginning on 2 December 1985.

STAT
STAT

STAT

2. I believe that [redacted] will make an excellent contribution to OSTP. He has recently managed our technical analysis of Soviet anti-ballistic missiles and has been heavily involved in the Strategic Defense Initiative and arms control issues. He is highly regarded both as a manager and an analyst in OSWR, and he is excited by the challenges that this new assignment will provide.

STAT

3. I continue to view this rotational assignment as one of the best available for up and coming OSWR managers. I am personally dedicated to providing you with the best candidates available.

Robert M. Gates
Deputy Director for Intelligence

**EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF SCIENCE AND TECHNOLOGY POLICY**

WASHINGTON, D.C. 20506

August 2, 1985

DDI- C3920:25

Dear Bob,

During the last several years this Office has had an Intelligence Officer assigned from the Central Intelligence Agency. The officers sequentially assigned to this position have been [redacted] all of the Office of Scientific and Weapons Research. The incumbents in this position have provided a significant input from the intelligence community to the policy formulation process for science and technology. Additionally, it has enabled senior personnel from your Agency to gain insight into the various policy development processes within the White House complex.

STAT
STAT

This office is now prepared to renew this position as the current incumbent [redacted] is preparing to return to the Agency. Although the position will have a significant intelligence component, it will also include duties on a broad range of national security issues related to policy analysis, formulation and implementation. The projected date for filling this Senior Policy Analyst position would be September 15, 1985, with a projected tour of duty of 12-18 months. It is requested that several nominees be considered for this position. Suggested criteria to be considered in selecting the nominees would be:

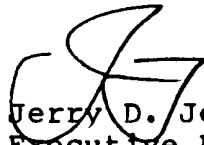

STAT

- A person in the GS-14/15 range with a strong capability to communicate verbally and in writing
- A broad background in intelligence including tactical and strategic systems
- An advanced degree (engineering or science)
- Management experience with intelligence analysis and production, and/or projects or systems
- Operational experience outside the Agency with DOD, the Services, industry etc.

When the nominees are identified please have your staff contact Dr. Maurice A. Roesch III, Assistant Director for Defense Technology and Systems (202/395-7326). Both he and I would like to participate in the evaluation process for the candidates. Our goal would be to identify the strongest possible candidate for the President's Science Advisor, Dr. George A. Keyworth to interview for the position during early September.

Thank you for your assistance in this matter.

Best regards,

A stylized handwritten signature in black ink, consisting of a large 'J' and 'D' intertwined.

Jerry D. Jennings
Executive Director

Dr. Robert M. Gates
Deputy Director for Intelligence
